**Lena Whitaker**

Anyone lucky enough to be in a position to catch the Aurora?

Like · Comment · Follow post · 23 January at 00:26 near Letchworth, England

**Bal Banwait**

What a beautifully clear evening for gazing up at the stars... Orion & Jupiter as lovely as always but the Gemini twins were looking pretty good too x

 Like · Comment · Follow post · 13 January at 20:43 via Mobile**Bal Banwait**check out this guys website - www.astrofilm.com. He's got an amazing aurora time lapse plus some other great pics! x**Astrofotografie von Sebastian Voltmer**astrofilm.com

Astrophotography *for beginners*

Sun & Moon

The Sun

But be careful!

The Sun

*A DSLR
&
Baader film filter*

The Sun

The Sun

The Moon

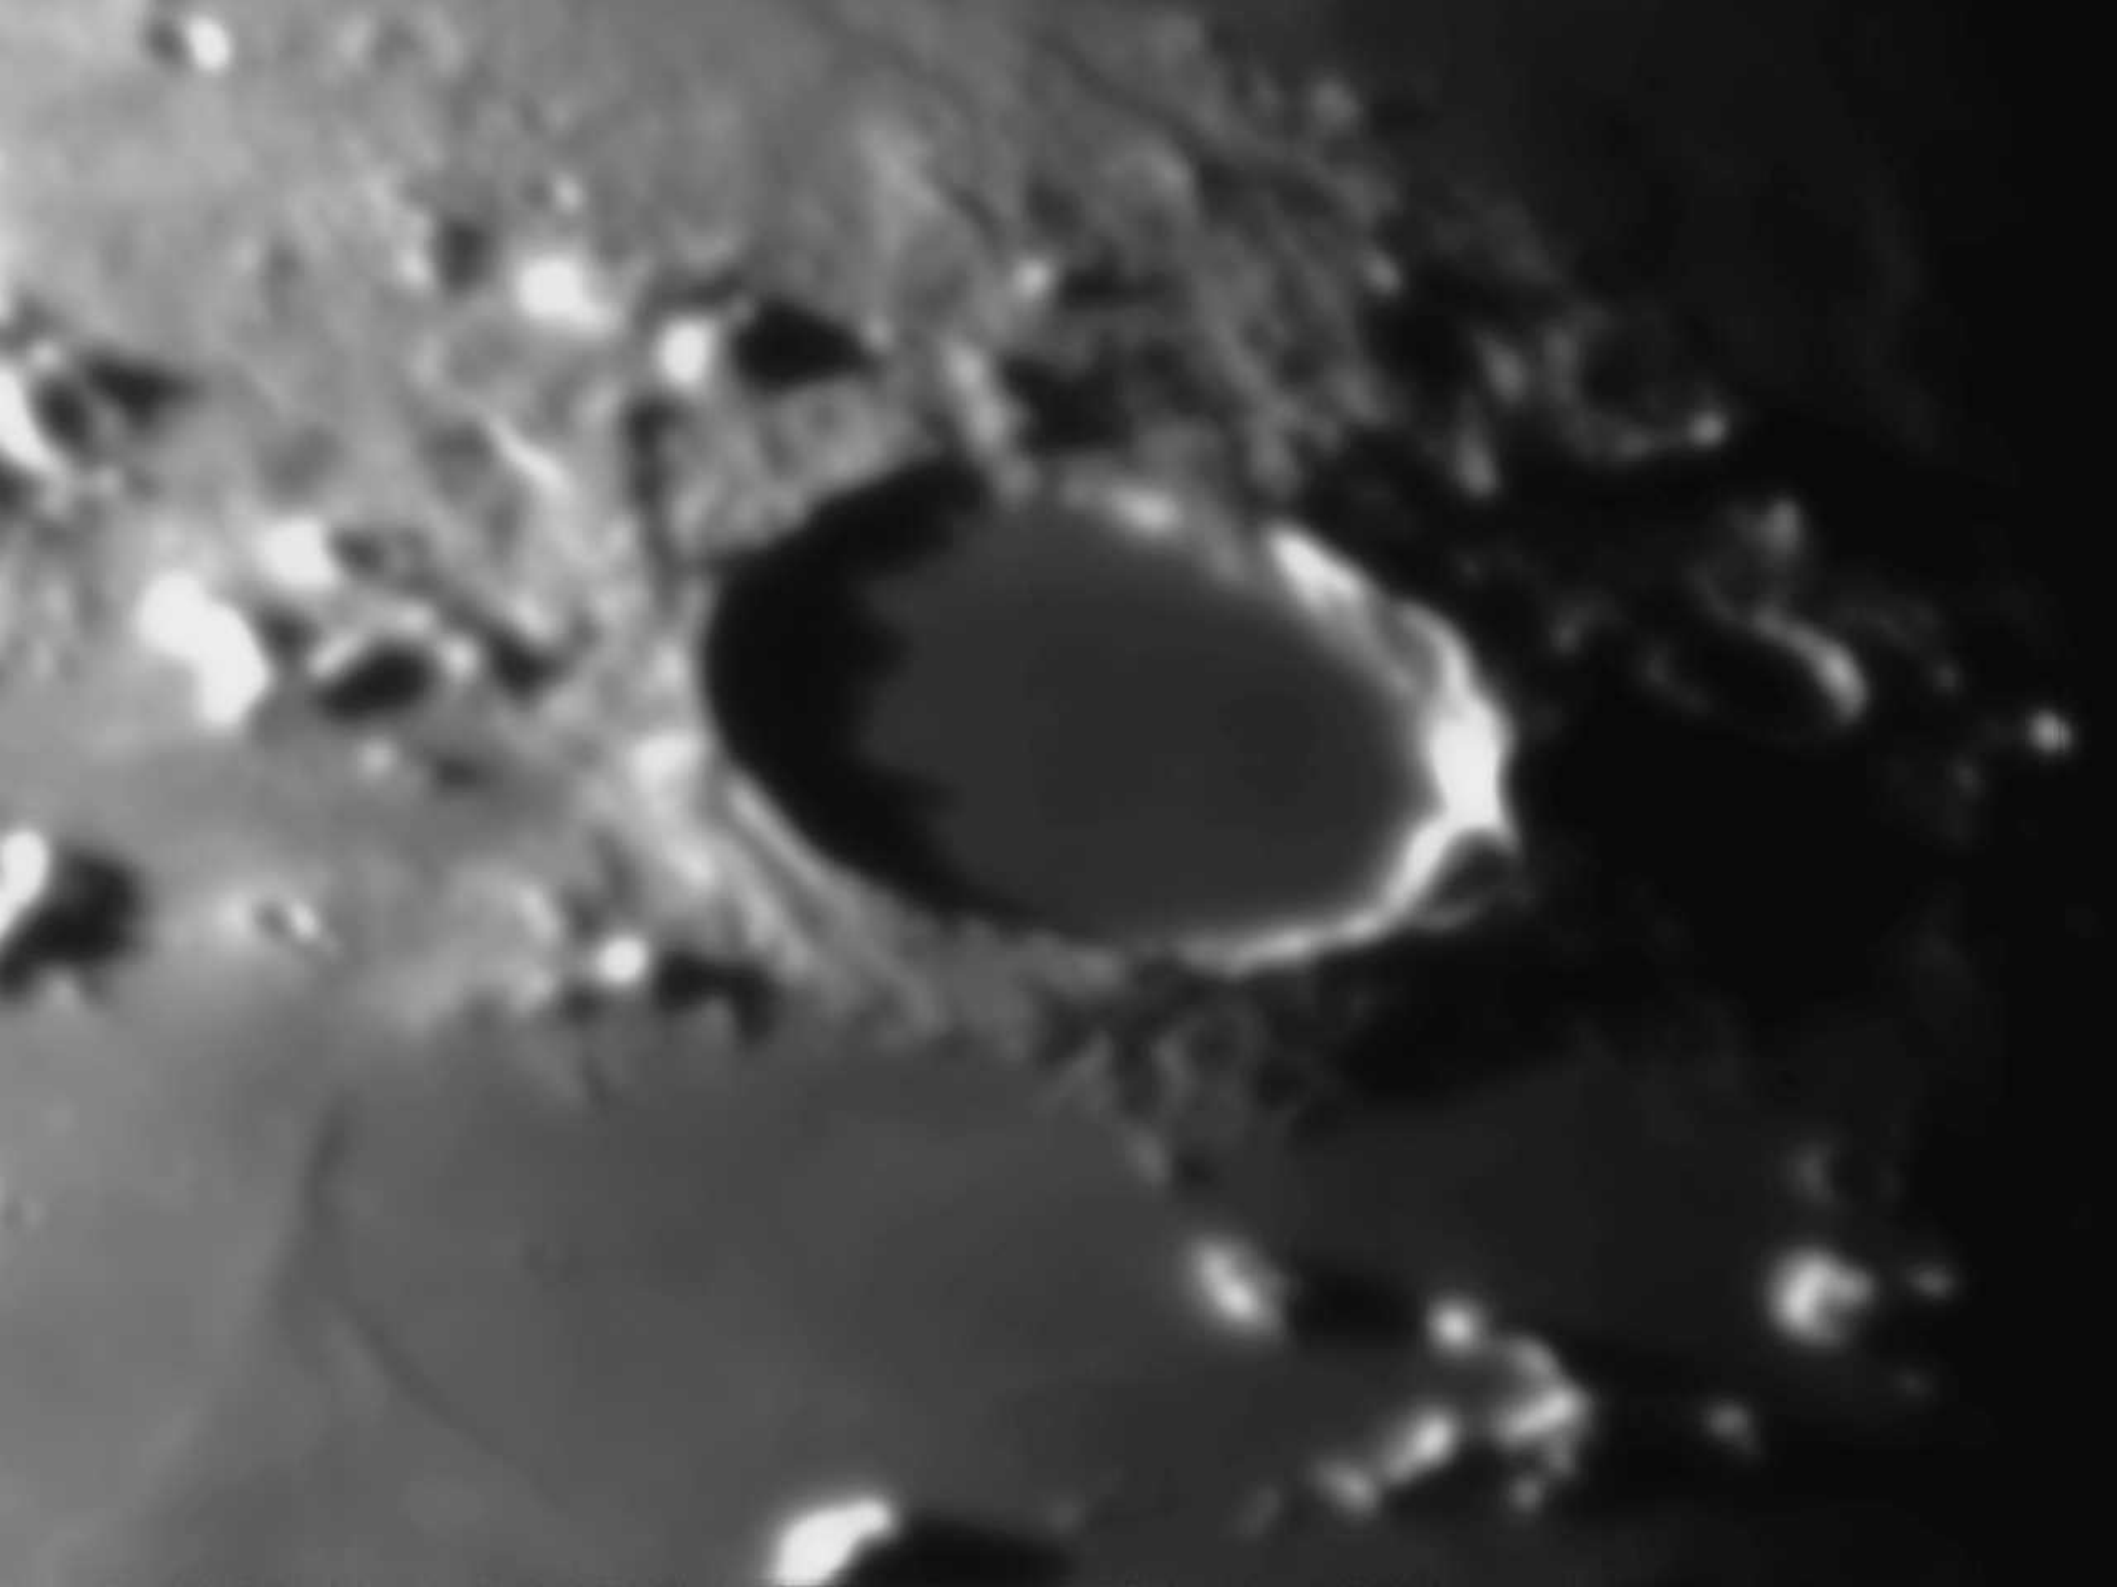

$\Delta t = 1hr$

Planning a shot

*Use an OS map
&
Stellarium*

Planning the shoot

Planning the shoot

The map shows the area around Greenwich, London, with various landmarks and streets. Key locations include the Old Royal Naval College, the Cutty Sark, the Queen's House, the National Maritime Museum, the Old Royal Observatory, Greenwich Park, and the South Building. The map also shows the Greenwich Reach, the Thames Path, and the Greenwich Pier. A scale bar at the bottom right indicates 500 feet and 250 meters.

Your assignment...

- *Send me two or three photographs at dbaskill@googlemail.com*
- *We will have a showcase where we will get to see each others ideas!*
- *Good, original or bad idea's are what we are looking for!
(we are not expecting perfect photo's!)*
- *We will have a show of your photo's...*
